PRINCE DEBRAH BESSAH SAM

Web Developer • React & JavaScript (ES6+) • Linux Systems Exposure

Accra, Ghana | bessahsam0277@gmail.com | +233 53 676 9784 | github.com/debrah-kobby | linkedin.com/in/princesam | debrahkobby.com

PROFESSIONAL SUMMARY

Web Developer with hands-on experience building responsive web applications using HTML5, CSS3, JavaScript (ES6+), React and Python. Experience administering Linux systems and Docker-based deployments through a Bitcoin infrastructure internship. Co-founded and scaled a student media platform to 50,000+ followers, pairing technical execution with brand strategy and cross-functional leadership. Seeking a Web Developer role focused on building fast, accessible, user-tested products.

TECHNICAL SKILLS

Full Stack: HTML5, CSS3, JavaScript (ES6+), React, Python, Django, SQL, Tailwind CSS, Bootstrap, Responsive Design
Tools & Workflow: Git/GitHub, Figma, Trello, Notion, VS Code, PyCharm, Supabase, Obsidian
Systems: Linux System Administration, Docker, Command-Line Workflows
Languages: English (Fluent), Fante (Native) | Typing Speed: ~70 WPM

WORK EXPERIENCE

Bitcoin & Linux Systems Intern – Bitfiasi Initiative – *Accra, Ghana* Aug 2025 – Oct 2025

- Built a working foundation in Bitcoin protocol fundamentals and decentralized finance principles in a structured, practitioner-led environment.
- Administered Linux servers and implemented Docker-based deployment setups, reducing environment setup time and improving configuration consistency.
- Led community outreach sessions reaching hundreds of residents, educating participants on Bitcoin and digital finance.

Selected Participant – Summer of Bitcoin Internship (Remote) Feb 2026 – Mar 2026

- Competitively selected from a global applicant pool for a Bitcoin developer program recognizing strong technical aptitude and problem-solving ability.

Full Stack Developer – Nexoratel Technologies – Accra, Ghana Aug 2026 – Present

- Build responsive web applications in JavaScript, React, Next.js and Django, working across both frontend and backend.
- Implement new features and maintain existing systems alongside the rest of the team.

PROJECTS

Personal Developer Portfolio – debrahkobby.com 2023 – Present

- Designed, built, and deployed a personal portfolio scoring 90+ across all four Lighthouse categories — Performance, Accessibility, Best Practices, and SEO.
- Built a blog with newsletter subscription (Brevo + Netlify Functions) and configured a custom domain with SEO/Open Graph metadata (Namecheap + Netlify DNS).

Luna Commerce — E-Commerce Web App – lunacommerce.netlify.app 2024 – Present

- Built and deployed a full e-commerce platform with product listings, shopping cart, and a responsive, conversion-focused checkout flow validated by early testers.

Novera Hotel — Hotel Management Web App – novera-hotel.netlify.app 2024

- Developed and deployed a boutique hotel booking application with room listings and a fully responsive layout across device sizes.

Additional projects are highlighted on my personal developer portfolio, debrahkobby.com

LEADERSHIP & EXTRACURRICULARS

Co-Founder – High School Plug – *Accra, Ghana* 2023 – Present

- Co-founded and helped scale a student media platform to 50,000+ followers across TikTok, Instagram, Telegram, and WhatsApp through content strategy aligned with student culture.
- Secured and managed brand collaborations with companies including Peeva Beverages and HnH — leading outreach, proposals, and partnership communications end-to-end.

SRC Vice President – Ghana Secondary Technical School (GSTS) 2022 – 2024

- Held executive student governance responsibility for a school community of 3,500+ students; led the flagship refurbishment of the staff common room from brief to completion.

Senior Prefect, Academic Affairs – Ghana Secondary Technical School (GSTS) 2023 – 2024

- Led academic improvement programs for a student body of 3,500+, coordinating inter-house debates, quiz competitions, and educational talks.
